

• EU-BASED • GDPR BY DESIGN • RUNS IN YOUR CLOUD

Find insights in **every** interaction with clients

AI Communication Inspector analyses every customer conversation — calls, chats and emails — and automatically surfaces what matters to your business.

100% of conversations read — up from under **2%** reviewed manually today.

WHAT IT DELIVERS

- ✓ **Sales & engagement insights**
Life events, financial needs and voice of customer
- ✓ **Compliance checked**
Regulated processes flagged, with evidence
- ✓ **Quality supervised**
Every conversation scored — not a 2% sample
- ✓ **Agents coached**
Tailored feedback for every operator

BUILT BY BULL

A leading European technology group focused on sovereign AI and data.

3K+

engineers & experts

32

countries served

13%

of revenue in R&D

MODULES

One platform. **Four modules.**

AI Customer Insights

Detects sales and engagement signals — life events, needs and voice of customer — from every conversation.

CRM · CX · DATA SCIENCE

AI Call Inspector

Multi-level call categorisation and checks for regulated processes — KYC, MiFID II and GDPR.

COMPLIANCE · PRODUCT · CONTACT CENTRE

AI Quality Assurance

Checks agents follow your process and supervises chat and sales-conversation quality across teams.

SALES SUPPORT · OPERATIONS

AI Coach

Automated, tailored call feedback for each operator, aligned to your call scripts and propositions.

CONTACT CENTRE · COLLECTIONS

DEPLOYMENT & ASSURANCE

Deployed your way, customised to your needs

- ✓ **Your cloud or ours.** Run it in your own Azure, AWS or GCP — data and IP stay yours.
- ✓ **EU-sovereign by design.** GDPR from the ground up, on Bull's own GPU and open models.
- ✓ **Live in weeks.** No labeling, no model training — changes in minutes, not months.
- ✓ **Every result explainable.** Each detection links to transcript, question and model version.

Essential

€10k / year

Up to **10,000** calls / year
10 questions on every call

Advanced

€20k / year

Up to **20,000** calls / year
10 questions on every call

Enterprise

€50k / year

Up to **100,000** calls / year
100 questions on every call

One annual price, sized by your call volume. Services, infrastructure and model tokens all included — part of Bull's AI Assurance model.

See it on your own communication

Get a walkthrough from an AI use-case architect who designs customer-intelligence use cases every day.
